

► Description

The ISX10 series are standard 19" shelves, made of steel with a plate thickness of 1.5 mm and provided with a black (RAL 9004) structured powder coating. They can be mounted inside all the different kinds of 19" racks and flight cases and they provide a solution for mounting standard electronics equipment which doesn't contain a 19" mounting fixture (such as DVD or Blu-ray players and many other types of equipment). The usable depth of 325 mm and open rear side allow easy connection of the installed equipment.

► Types

- IS110 (1 unit)
- IS210 (2 units)
- IS310 (3 units)
